

Entrada de referencias y documentos. Desde la Web of Science

Puedes exportar registros a tu cuenta mediante un fichero *RIS*.

Haz la búsqueda en Web of Science:

Selecciona los registros que te interesan y escoge la opción *Exportar-RIS*

A continuación, comprueba los datos para la exportación y haz clic en *Exportar*:

Genera un fichero  que has de arrastrar a la parte central de Mendeley Desktop o Mendeley Reference Manager (Desktop o Web):

Los registros quedan incorporados en Mendeley y sincronizas para guardarlos en ambas versiones:

The screenshot shows the Mendeley Desktop interface. The main window displays a list of documents under the 'All Documents' tab. The list includes columns for Authors, Title, Year, Published In, and Added. One document is highlighted in blue.
